Sir:

RESPONSE

In response to the Restriction Requirement mailed September 8, 2003, the Applicants hereby elect Group I (claims 1-3 and 10-15). This election is made with traverse.

Typically, in restriction requirements, an indication will be provided as to the class and subclass of the subject matter identified in each group, to provide a basis for restriction. In the present Official Action, no such class/subclass indications have been provided. Based on this, it is assumed that the subject matter of Groups I-III is classified in the same class and subclass. That being the case, it is clear that the restriction requirement should be withdrawn and all claims in the application examined in the present case. Such action is respectfully requested.
